WORK EXPERIENCE

Google Developer Groups OnCampus ACE (GDGC) Malad West, Mumbai
Core Team & Cloud Team Member *Sep 2025 – Present*

- Deployed a **Flask backend on GCP** independently; implemented **Nginx, Prometheus, Ansible, and Certbot** for **monitoring, automation, and SSL**. (Docs)
- Earned **25+ Google Cloud Skill Badges**; **Led and mentored 12 participants** to successfully complete **Cloud Study Jam 2025**. Improved team execution using **Jira** and applied **Docker containerization fundamentals** for efficient technical planning. (Link)

Google Developer Groups OnCampus ACE (GDGC) Malad West, Mumbai
Web Team Member *Aug 2024 – Sep 2025*

- **Led development of GDG Organization Website** with a **10-member team**, contributing to core pages and delivering a **verified 30% improvement in site design**.
- **Built Pixel Designathon Website** using **React, HTML, Tailwind CSS**; handled **100+ peak registrations** and integrated **React Hook Form** and advanced UI libraries. (Live)
- **Developed** Recipe Generator App consuming **CalorieNinja API** via **Axios**, achieving **~200ms average API response latency**.

PROJECTS

Full Stack Authentication Service (GitHub) *Oct 2025 – Dec 2025*

Tech Stack: React, Node, Express, MongoDB, JWT, Bcrypt, Tailwind CSS

- Architected a **full-stack MERN authentication service** with **JWT-based authorization**, **secure password hashing (Bcrypt)**, and **OTP-driven recovery flows**, mirroring production auth systems.
- Implemented **RESTful API endpoints** for auth lifecycle management and **email verification pipelines** using **Nodemailer + Google SMTP**, ensuring secure identity validation.
- Built a **React-based client** using **React Hook Form** and **Axios**, enabling reliable form validation, error handling, and backend integration across all auth flows.

Hackathon Ticket System (GitHub) *Nov 2024 – Dec 2025*

Tech Stack: React, HTML, CSS, JavaScript, React Hook Form, Lucide React

- Built a **React-based hackathon registration system** with validated multi-user forms and **unique sequential ticket ID generation**, ensuring reliable participant tracking.
- Implemented **client-side state persistence using Local Storage**, simulating a backend-like data layer for registration management.
- Developed an **Admin Dashboard** with **real-time CRUD functionality**, live metrics, and search capabilities to streamline organizer side data handling.

TECHNICAL SKILLS

JavaScript, Python | React.js, Redux, Tailwind, shadcn UI | Node.js, Express.js, Flask, RESTful APIs, JWT Authentication | MongoDB, PostgreSQL | Google Cloud Platform (GCP), Docker, Ansible, Nginx, Prometheus | Git, GitHub, Postman, Jira, n8n.

SEMINARS, WORKSHOPS & ACHIEVEMENTS

- **Team Lead, HackRobo 1.0 — IoT Search & Rescue Bot (Blynk Cloud); secured 9th position out of 37 teams**.
- **AIR 4,967 – AINCAT 2025 (2.1L + Participants) | Naukri Campus Young Turks 2025 (Certified).**
- **AI Meets Signal Processing (MATLAB PDP) | CSI Bootcamp — Machine Learning, Deep Learning, DSP**.
- **Drone Expo 2025 — defense drones, AI–software integration, surveillance, rescue, smart farming**.

EDUCATION

Atharva College of Engineering, Malad West Mumbai, India

B.E. in Electronics and Telecommunication Engineering Graduation Date: May 2027
