EXPERIENCE

Software Developer (RnD Project) — Trafficore

Feb 2026 – May 2026

Atharva College of Engineering (R&D Cell)

Mumbai, India

- Reduced code duplication by ~40% across 4 core services by redesigning a hardcoded prototype into a modular Node.js/Express backend with MQTT telemetry ingestion and PostgreSQL storage.
- Eliminated dashboard latency to under 300ms across 3 real-time views by implementing a WebSocket (Socket.io) layer, Clerk authentication, and RBAC for Hospital, Admin, and Ambulance roles.
- Enabled bidirectional real-time communication with 2 ESP32 traffic signal controllers by configuring Raspberry Pi as an MQTT publisher and broker integrated with the backend API.

Core Team & Cloud Team Member

Sep 2025 – Present

Google Developer Groups OnCampus ACE

Mumbai, India

- Improved deployment reliability and observability for a college-wide SMTP service by deploying Flask on GCP with Nginx, SSL (Certbot), Docker, Ansible automation, and Prometheus monitoring.
- Achieved 80% participant completion rate (12 of 15) at Cloud Study Jam 2025 by mentoring assigned members through GCP Console blockers across a 180+ member program.
- Expanded community technical exposure to 60–80 attendees by delivering a WebXCloud workshop on web development and GCP fundamentals, and judged TechSprint (100+ teams, 250+ participants).
- Contributed to development of the [GDGC Designathon 2.0](#) platform ([GitHub](#)), which scaled to 700+ users and 240+ team registrations during a live hackathon event.

PROJECTS

MarkForge — AI Document Intelligence Platform

Jun 2026 – Present

TypeScript, Node.js, Express 5, React 19, Python 3.12, MarkItDown, Groq AI, PyMuPDF, Docker

[GitHub](#) | [Live](#)

- Reduced document processing cost by 10–30× by running Microsoft MarkItDown locally for zero-token PDF extraction before Groq AI (llama-3.3-70b) processing, vs direct PDF-to-LLM.
- Engineered a 6-stage AI pipeline across 6 document categories — PDF upload, Python subprocess, Groq classifier, type-specific prompt routing, chunked inference, and structured markdown output.
- Shipped a production-ready full-stack AI platform that transforms dense PDFs into structured, readable knowledge documents.

AuthVault — Full Stack Auth-as-a-Service Platform

Oct 2025 – Dec 2025

React 19, Vite, Node.js, Express, MongoDB, Redis, JWT, Bcrypt, Shadcn UI, Radix UI

[GitHub](#) | [Live](#)

- Built a multi-tenant AaaS platform letting developers register projects and generate scoped API keys to embed authentication into their own apps — inspired by Clerk/Auth0.
- Eliminated common auth vulnerabilities with JWT (HTTP-only cookies), bcrypt, RBAC, Redis rate limiting, session management, and device-info tracking.
- Reduced password recovery friction by implementing OTP-based email verification and password reset via Nodemailer on a layered Controller-Service-Model architecture.

SKILLS

Languages:	JavaScript, TypeScript, Python, C++, SQL.
Frontend:	React.js, Tailwind CSS, HTML5, CSS3, Shadcn UI, Framer Motion, GSAP.
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, WebSockets, MQTT, Nodemailer.
Databases:	PostgreSQL, MongoDB, Prisma, Mongoose.
Cloud & DevOps:	Google Cloud Platform (GCP), Docker, Nginx, Prometheus, Ansible, CI/CD.
Tools:	Git, GitHub, Postman, Linux, Vercel, n8n.

ACHIEVEMENTS

- Led HackRobo 1.0 (National Level Hackathon) and built an IoT-based search & rescue bot; ranked 9th out of 40+ teams.
- Led a team in SIH 2025 Hackathon, securing 16th place among 50 participating teams.
- Recognized as part of the GDGC Web Team (Best Team of the Year) for event platform development.
- Earned 25+ Google Cloud Skill Badges across cloud computing technologies ([Cloud Skills Profile](#)).
- Solved 200+ coding problems on [CodeChef](#) and [LeetCode](#).

EDUCATION

B.E. in Electronics & Telecommunication Engineering

CGPA: 6.32/10

Atharva College of Engineering, Mumbai

May 2027

Coursework: Data Structures & Algorithms (DSA), Operating Systems (OS), Database Management Systems (DBMS), Computer Networks (CN), Artificial Intelligence & Machine Learning
